

AMERICA NEEDS YOUR VOICE

■ Save Middle Class Jobs

■ Affordable Family Health Care

■ Restore the American Dream for America's Workers

Every time you and your union negotiate a new contract, your company compares what you have to the non-union competition and tries to drag down your working standards.

It doesn't have to be this way. With more union members on our side of the table, we can raise working conditions for everyone—your co-workers and other workers throughout your industry.

HOW? WITH THE EMPLOYEE FREE CHOICE ACT

—Federal legislation that will:

- *Establish strength in numbers at the bargaining table to raise wages and benefits, including quality family health care*
- *Transform the low-wage economy into a good jobs economy*
- *Provide workers a simple, one-step process to freely choose union representation*
- *Increase middle class jobs*
- *Make America work for American workers*

STRENGTHEN AMERICA'S MIDDLE CLASS

Nearly 60 million workers say they would join a union if they could. Under Employee Free Choice, if a majority of workers freely choose to sign up for union representation, their company must honor that choice the first time they speak out.

TO: THE NEW PRESIDENT AND CONGRESS:

I urge you to enact the Employee Free Choice Act—save America's middle class—and make the American Dream possible for millions of workers.
